University of Newcastle

USC’s affiliate program in Australia is designed to help American students gain first hand knowledge of Australian culture. The program is located on Australia’s east coast in the state of New South Wales. Students will attend the University of Newcastle. The University has two major campuses. The larger campus (student pop. 16,000) in Callaghan is situated approximately 7.5 miles west of the city of Newcastle on a natural bushland site. Students can take advantage of the campuses’ great sports facilities and the many recreational and social activities provided by the university. The campus is also connected to the city by both bus and rail, providing easy access to Newcastle’s beaches and nightlife. The city has a working harbor, splendid architecture dating back to the 1800’s, beaches, art galleries, and theaters. The other campus is in Ourimbah (student pop. 1,800) on the central coast, mid-way between Newcastle and Sydney. Only USC undergraduate students are eligible to participate in this program.

The program at the University of Newcastle offers a full curriculum. Students take classes with Australian and other international students. Classes are taught in English.
